

Dear members of the FCC,

I feel that you would be clearly negligent in your obligation to safeguard our public airwaves if you were to permit the Sinclair Broadcasting Group to force its member stations to air "Stolen Honor," under the ruse that this is "news." The Sinclair Broadcasting Company is on record as being dedicated to the re-election of George W. Bush, and "Stolen Honor" is a biased pseudo-documentary which is propaganda, not news.

In the interests of legitimate and balanced television broadcasting, I expect you to either prohibit this egregious pollution of our airwaves by preventing the Sinclair Group from commanding this obedience from its member stations.
